Canada N2L 3G1.

aequationes mathematicae is published by the University of Waterloo
and Birkhäuser Verlag.

The journal will publish papers in pure and applied mathematics in general
but, in particular, papers on functional equations, combinatorial and nu-
merical analysis. The languages in which papers will generally be accepted
are English, French, and German.

Types of manuscripts that will be considered for publication include origi-
nal research papers, problems and their solutions, expository papers and, as
short communications, self-contained abstracts of papers which have been
accepted for publication either by this or some other journal with a referee
system.

Manuscripts of papers should be submitted to the Editorial Office or to a
member of the editorial board. Authors of papers should send the original
and two additional copies. Since it is the policy of the journal to publish in
advance short communications of all results it accepts for publication, au-
thors should include with the original submissions a self-contained abstract
of their paper of length 25–100 lines, which contains a precise statement of
the results in the paper. Authors should also include an AMS classification
for their paper.

Subscription information

This journal appears in 1–2 volumes of 3–6 issues per year (bi-monthly)
Annual subscription: sFr. 272.—, DM 312.—, approx. US\$ 140.00 postage
included.

Single issue: sFr. 50.—, DM 58.—, approx. US\$ 26.00 postage not included.
Subscription orders should be placed with Birkhäuser Verlag, P.O. Box
133, CH-4010 Basel/Switzerland, or through bookseller or subscription
agency.

Additional charges for airmail to other countries are available on request.
Claims for undelivered issues must be made promptly – at the very latest,
immediately following receipt of the issue succeeding the missing number.
Annual subscriptions cannot be cancelled before the fixed date of expira-
tion. Cancellations of standing orders must be effected 2 months before the
end of the publishing year.

Copyright

It is a fundamental condition of publication that submitted manuscripts have not been
published, nor will be simultaneously submitted or published elsewhere. By submitting a
manuscript, the authors agree that the copyright for their article is transferred to the pub-
lisher if and when the article is accepted for publication. The copyright covers the exclu-
sive rights to reproduce and distribute the article, including reprints, photographic repro-
ductions, microform or any other reproductions of similar nature, and translations. Photo-
graphic reproduction, microform, or any other reproduction of text, figures or tables from
this journal is prohibited without permission obtained from the publisher.
